

The NES miHealth German Launch, adds to Worldwide Success!

The NES miHealth was presented to over 40 top doctors and therapists in Viernheim, Germany this past weekend. This follows two very successful training courses introducing the NES miHealth in the Netherlands and United Kingdom.

During the presentations and practical training, participants spoke of an imminent breakthrough in healthcare and how The NES miHealth will yield very fast results for their clients.

One of the attendees of the German training was an osteopath at a German top football club, working with international footballers on a daily basis. His reaction to the training was very positive and the osteopath described the NES miHealth as a very exciting development in supporting the welfare of athletes.

The NES miHealth will be the new standard in healthcare for the future.

Within the last month more than 100 professionals worldwide have been trained with the NES miHealth. Their future expectations are very high and they are excited about the potential of The NES miHealth.

We will keep you updated with all further developments.
